**NOTIFICATION***Addendum*

The following communication, dated 26 November 2019, is being circulated at the request of the delegation of Honduras.

---

RTCA No. 75.01.21:05: Petroleum products. Liquefied petroleum gases: Commercial propane, commercial butane and blends thereof. Specifications

On 1 July 2005, the Government of the Republic of Honduras notified, in document G/TBT/N/HND/21, draft Central American Technical Regulation (RTCA) No. 75.01.21:05: "Petroleum products. Liquefied petroleum gases: Commercial propane, commercial butane and blends thereof. Specifications".

The notified Technical Regulation establishes the physico-chemical characteristics of two grades of liquefied petroleum gas (LPG): commercial propane and commercial butane, generally used as heating fuel in the domestic, commercial and industrial sectors, as motor vehicle fuel and as a raw material in the petrochemical industry. Any blend of these products can be used provided that the blends comply with the specifications set forth in this Regulation. This Technical Regulation applies to LPG marketed in Central American countries.

The purpose of the present Addendum is to notify WTO Members that this Technical Regulation has been updated and that there will be a comment and observation period of 60 days as from the date of this notification.
